

Hunter HDMI 2.0 Active Optical Cable Armoured AOC 40M 4K

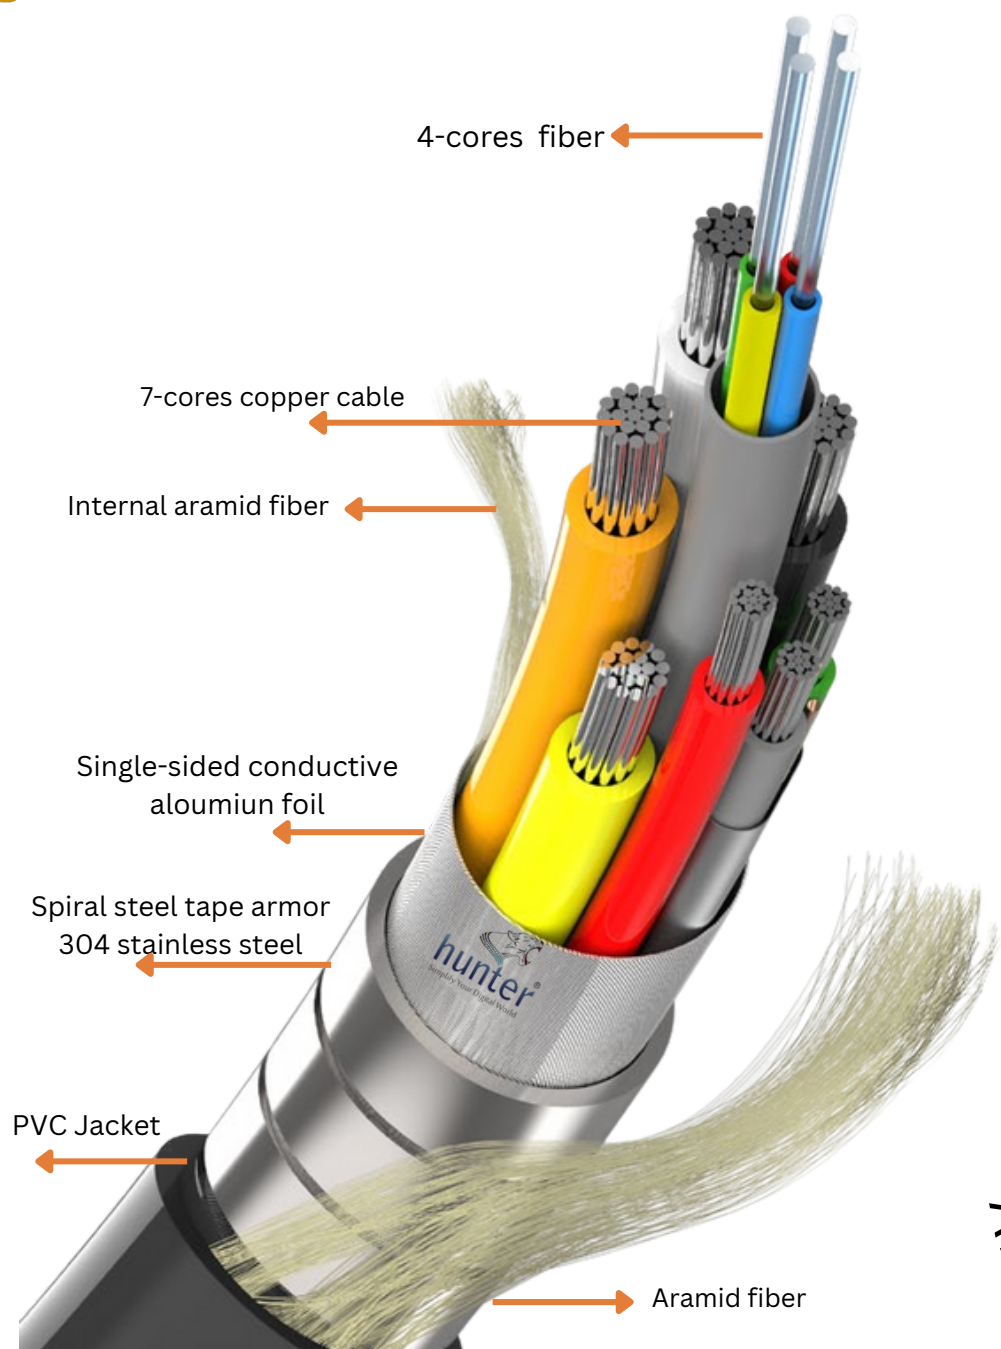

Data Sheet

Hunter HDMI 2.0 active optical cable Armoured AOC 40M 4K-9161

Hunter Active Optical cable

4K ULTRA HD

Product Introduction

Hunter HDMI 2.0 Active Optical Cable (AOC) 40M, a cutting-edge solution designed to meet the demands of high-definition audiovisual installations. This Armoured AOC ensures unparalleled signal integrity and reliability over extended distances. From immersive 4K visuals to immersive audio experiences, the Hunter HDMI 2.0 AOC 40M sets a new standard for long-range HDMI connectivity.

Features

- **High-Speed Data Transmission:** Supports HDMI 2.0 specification, providing a bandwidth of 18Gbps for smooth transmission of high-definition audio and video signals.
- **Ultra HD Resolution:** Capable of delivering crisp and clear 4K resolution content at a smooth 60Hz refresh rate, ensuring immersive viewing experiences.
- **3D Video Support:** Capable of transmitting 3D video content, providing an immersive viewing experience for compatible displays and content.
- **Zinc Alloy Gold Plated Connectors:** Offers corrosion resistance and optimal signal transfer, ensuring reliable connectivity over time.
- **HDR10 Support:** Enables High Dynamic Range (HDR) content playback, allowing for enhanced contrast and vivid colors for a more lifelike visual experience.

Specifications

Model	9161-HUH-4KARAOC-MM-40M
Type	HDMI 2.0 Active Optical Cable
Length	40 Meters
Maximum Resolution	4K @ 60Hz
Bandwidth	18Gbps
HDCP Compatibility	HDCP 2.2
Color Space	4:4:4
Audio Support	ARC (Audio Return Channel)
Connector Type	Zinc Alloy Gold Plated HDMI Connectors
Armoured Construction	Steel Helical Armoured Interior
Jacket Material	PVC
HDMI Version	HDMI 2.0
HDR Support	HDR10

Applications

Security Monitoring System

Medical Imaging System

Exhibition Hall

Auditoriums
